About Me

I love to dive into the process. I think that should work with pleasure and for that reason I like the scope of IT. I study at the Kiev Polytechnic Institute 2 course. In free time I improve my skills or learn something new, having fun doing freelance jobs. I want career growth and development.

Education

Kiev Polytechnic Institute	Department of Computer Science, Software Engineering
2014-2019	Student

Skills

JavaScript	HTML	CSS	Databases	Git
ECMAScript 6	HTML5	Less	Postgresql	
jQuery	Jade	SASS/SCSS	MySQL	
React	Handlebars	Bootstrap	MongoDB	
Angular		Materialize		
Ajax				
Node				

Hobby

I am crazy about sport, especially snowboarding and rollerblading. I read books, especially like detectives, sometimes paint. But the main hobby, I think the programming, for me it is not just a job, but also your favorite activity.

Work Expirience

Software Engineering 2015 (IT conference) — http://seconf.org.ua	Volonteer
Sep 2015	Social streaming, speaker's assistant, security

Half a year of work for upwork. Corrected bugs in the front, made adaptive sites, as well as the layout of pixel perfect. Made plugins with jQuery and React js. At the moment, there is no experience on a long-time job.
